Subject: Proposal for Development & Installation of B2B E-Commerce Platform

Dear Sir,

Aelyth IT Solution is pleased to submit this proposal for the development, installation, and handover of a custom B2B E-Commerce Platform. This platform is designed to streamline wholesale operations, improve client management, and enhance online sales processing. We are confident that this solution will provide valuable support in achieving operational goals with real-time order management and process automation. Enclosed in this proposal are details about the system's benefits, features, technical specifications, and financial terms.

System Benefits

The B2B E-Commerce Platform offers a range of capabilities designed to enhance your business productivity and streamline operations. Key benefits include:

Enhanced Visibility & Control

- Real-time data integration across products, orders, and B2B clients.
- Improved tracking of orders.
- Automated notifications and confirmations to clients and admin.

Increased Efficiency & Productivity

- Automated invoice generation and order processing.
- Streamlined cart, checkout, and inventory management.
- Responsive interface accessible across desktop, and mobile devices.

Reduced Costs & Improved Revenue

- Optimized order management.
- Insight-driven product and pricing management.
- Improved client satisfaction with accurate order fulfillment.

Key Modules & Features

Module	Description
Public Frontend	Homepage, About, Contact pages; Product listing (without pricing); B2B login/registration page
B2B User Panel	Login authentication; Product dashboard with wholesale pricing; Cart management; Checkout (COD); Automated invoice generation; Confirmation emails; Order history with downloadable invoices
Admin Panel	Order management with status updates; Product, price, and inventory control; B2B user creation, activation & deactivation
System Integrations	SMTP email automation; Secure login system; Optimized responsive layout; Performance enhancements

Note: Any new modules or large-scale customization will be charged additionally depending on development complexity.

Technical Specifications

- Frontend: HTML, CSS, JavaScript
- Backend: PHP
- Database: MySQL
- Email Service: PHPMailer with SMTP configuration
- Development Process: Agile methodology with iterative corrections and updates

Project Timeline & Delivery

- Correction Phase: 7–14 working days after submission of final correction list
- Final Deliverables: Fully functional platform, source code, database files, admin credentials, server deployment, basic documentation
- Client Responsibility: Delayed responses may extend the timeline

Financial Proposal

Particulars	Quantity	Amount (BDT)
Development Fee	1	10,000
Hosting (5GB, 1 Year)	1	4,400
Domain (1 Year)	1	2,000
Total (Development + Hosting + Domain)		16,400

Advance Payment: Hosting + Domain: BDT 6,400 (before deployment)

Remaining Payment: Development Fee: BDT 10,000 (before final handover)

Full ownership of the platform, source code, and credentials will transfer only after 100% payment.

Maintenance & Support

- Initial Support (30 Days): We will be happy to address any minor issues or bugs reported within 30 days of delivery at no additional cost.
- Major Changes & Updates: Any requests for major functional changes, new features, design/UI updates, content uploads, or issues unrelated to hosting will be handled upon request and will require separate payment.
- Domain & Hosting Renewal: After 1 year, hosting and domain renewal charges will apply according to current market rates and applicable taxes/VAT.

Payment Terms

- Advance payment as stated above.
- Remaining development fee cleared before handover.
- Payments via cheque, Bank, cash, or mobile banking in favor of Aelyth IT Solution

Disclaimer

- This quotation is valid for 21 days from the date of issue.
- No cancellation is permitted after submission of the work order.
- Modifications after final approval may incur additional charges.

We look forward to the opportunity to work with Bazarya General Trading F.Z.C and provide a B2B E-Commerce Platform that meets operational needs and contributes to business growth and efficiency.

Best regards,

Ehetisum

Ehetisum Sharif
